INDEX

Note—Illustrated articles are marked with an (*) asterisk, editorials with an (E), letters to the editors with an (L), questions and answers with a (Q), paragraphs with a (P), and news items with an (N).

A

A good man needed (E) ... 4
A. Mackenzie, Diesel-electric dredge ... *231, 409
A New York senator helping his home port(?) (E) ... 263
Absorption of air in water ... 498
Accelerated circulation features new marine boiler ... *589
Accidents on lake vessels, Safety committees reduce. G. A. Marr ... 209
Accommodations, Ventilating passenger and crew. W. E. Spofford ... *412
Acme eye shield for grinding machines: Dreis & Krump Mfg. Co. ... *496
Action of the contrapropeller. Olav Overgaard ... *591
Admiralty law and shipbuilding ... 454
Adoption of Diesel engines (E) ... 201
Advantages of the cruiser stern (Q) ... 185
Aeronautics in naval architecture. J. C. Hunsaker ... 725
Air compressor, Portable: Ingersoll-Rand Company ... *435
Air hoist: Ingersoll-Rand Company ... *154
Air in water, Absorption of (Q) ... 498
Air propeller-driven speed boats ... 435
Airplanes, May write (P) ... 19
Airship with special reference to transport, Development of the. Commander C. D. Burney ... 398
Alexander Hamilton, Hudson River Day Line steamer ... *443, 459
Alexander Milburn Company: Super-mixing tip for metal cutting torches ... *292
Allen, R. W.: Turbine drive for auxiliary machinery ... *554
Aluminum alloy pistons for Diesel engines. Major Johnstone-Taylor ... 397
American double acting two cycle Diesel engine ... *528
American Marine Association holds spring banquet (N) ... *381, 753
American marine congress, Central committee meet on April 10 ... 210
American marine standards committee, Important meeting of ... 54, 126, 272
American rights—are they to be maintained or given up? (E) ... 2
American steamboats (E) ... 265
Americanization afloat. F. H. Haines ... 465
Americanizing crews of American vessels (P) ... 368
Analysis, Electrical method of flue gas ... 170
Anchor and chain shackle, New: National Malleable Steel Castings Company ... *304
Anchor chain, Stud vs. Link (Q) ... 498
Anchor-Donaldson liner Athenia in Glasgow and Montreal passenger service ... *149
Anchors, Weight of (Q) ... 437
Another plan for aiding the merchant marine (E) ... 2
Aorangi, Diesel machinery for passenger liner. Special London Correspondent ... *291
Aorangi, Passenger motorship. Special London Correspondent ... *470
Appendage resistance in high speed ships (Q) ... 185
Application of fuel conservation and engineering performance standards of Shipping Board vessels. C. J. Jefferson ... 732
Applications of arc welding to ship construction. E. H. Ewertz ... *47, 114
Applying chemistry to marine engineering problems. C. A. McAllister ... 396
Arc welded ships, Residual stress in. James W. Owens ... *487
Arc welding applied to shipbuilding, Electric. A. G. Bissell ... *617
Arc welding to ship construction, Applications of. E. H. Ewertz ... *47, 114
Arc welding unit, Portable: Electric Arc Welding and Cutting Company ... *702
Argentine battleships Rivadavia and Moreno to be reconditioned (N) ... *567
Army supply base taken over by Charleston (N) ... 379
Arthur N. Herron, Diesel-engined motor tug ... *174
Ascania, Passenger steamship ... *90
Athenia, Cabin and third class passenger steamship ... *149
Atlantic City Line plans new vessels for 1925 (N) ... 257
Atlantic Coast Shipbuilders' Association annual meeting (N) ... *318, 380
Atlantic Works, New 8,000-ton floating dry dock in operation at ... *90
Attaching tiller cable to steering wheel drum (Q) ... 683
Attachment of steel sheathing (Q) ... 621
Aurania, Passenger steamship ... *653
Autogenous welding (Q) ... 437
Automatic cut-out switch: Engine room kinks. C. C. McMillan ... *556
Automobile capacity of ferryboats doubled ... *434
Auxiliaries, Water rates and steam consumption of. E. A. Stevens, Jr., and H. E. Brelsford ... *427, 492, 547, 611, 676
Auxiliary machinery and Diesel engines, Lubricating Diesel ... 298
Auxiliary machinery, Preservation of steam (Q) ... 55
Auxiliary machinery, Turbine drive for. R. W. Allen ... *554

B

Barge in Mississippi river packet service (photograph) ... *372
Barge, J. H., Senior, Electric oil ... 167
Barge, Method of computing amount of coal removed from (Q) ... 314
Barge towing regulations ... 160
Barges built with sea sled type hulls ... *600
Barges of channel sections bolted together, Building ... *148
Barraja-Frauenfelder J.: Review of "The Birth and Development of the American Submarine" ... 561
Battleship Colorado, Official sea trials of United States (N) ... 506
Battleship Maryland awarded highest engineering honors in the Navy ... 516
Battleship Michigan being scrapped, (photograph) ... *342
Battleships Rivadavia and Moreno to be reconditioned, Argentine (N) ... *567
Battleships, Scrapping the (E) ... 693
Beardmore oil engine, New. Special London Correspondent ... *91
Berg, Eskil: Modern tendencies in steam power plants ... *305
Bearings, Lining up shaft (Q) ... *436
Bearings, Pad system applied to journal. Major Johnstone-Taylor ... *476
Bethlehem Company Modernizes Simpson Dry Dock plant (N) ... *629
Bethlehem oil engine tested in motorship Cubore ... 147
Bethlehem repair plant, New (P) ... 237
Bethlehem two cycle Diesel engine ... *161
Bibliography of electric welding ... 117
Bienville launched, Passenger steamship (P) ... *465, 567
Bissell, A. G.: Electric arc welding applied to shipbuilding ... *617
Blair, F. R.: Government supervision of shipping in England ... 303
Block coefficient (E) ... 695
Block coefficient (Q) ... 374
Boiler, Prudhon-Capus marine type ... *589
Boiler, What is the ultimate economy of a marine. H. C. Dinger ... 534
Boiler with and without preheated air, Tests on a cylindrical. W. H. Owen ... *244
Boilers and condensers, Electrolytic system for preventing corrosion in ... 289
Bolt holes in heavy castings, Margin for (Q) *436
Bonus system, Matson Navigation Company adopts continuous service ... 329
"Bordereaux": Recent developments in marine insurance ... 45, 112, 182, 248, 311
Boston, Passenger steamship ... *399
Boundary angles, Rivet spacings for watertight (Q) ... 250
Bragg, Edward M.: Wake and thrust deduction of self-propelled single screw models ... 730
Brelsford, H. E.: Water rates of geared turbines ... 171
Brelsford, H. E.: Water rates and steam consumption of auxiliaries ... *427, 492, 547, 611, 676
British Aviator, Motor tanker ... *583
British shipping and shipbuilding developments. W. H. Wendon ... *369
British shipbuilding company in financial straits, Another ... 43
British shipbuilding outlook (P) ... 407
British shipowners analyze performance of motorships. W. H. Wendon ... 77
British shipowners consider future of Diesel engine. W. H. Wendon ... 146
British shipowners find trade facilities act harmful. W. H. Wendon ... 211
British yard builds largest marine Diesel engine. Special London Correspondent. *239
Bronze propeller blades, Shipping Board orders (N) ... 569
Building barges of channel sections bolted together ... *148
Bulk freighter Charles M. Schwab, Great Lakes ... *278
Bulk freighter William K. Field, Great Lakes ... *216
Bulkheads show great stiffness with small weight, Haskelite ... 16
Burney, Commander C. D.: Development of the airship with special reference to transport ... 398

C

Cabin ships (E) ... 266
Cabin type vessel Republic ... *275
Cable ship Cyrus Field (French) (N) ... 259
Calculating amount of coal removed from barge, Method of (Q) ... 314
Calculating end movement of shaft of screw type steering gears (Q) ... 314
Calculation of sounding of bottom tanks (Q) ... 185
Cam profiles and fuel injection on Diesel engines, Major Johnstone-Taylor ... *665
Camber of launching ways (Q) ... 682
Camber sheer and bevel nomogram, A deck. E. V. Telfer ... *362
Camellaird-Fullagar opposed piston engine. Special London Correspondent ... *239
Capstaff-Hunter Turbine Works (N) ... 382
Car ferry Pere Marquette 21 commissioned. *521
Car ferry, Steel steam driven (N) ... 378
Care in use of fuel oil (E) ... 634
Care of the laid-up fleet. James Swan ... *654
Care of wood decks during lay-up. (Q) ... 437
Cargo and passenger motorship Centaur ... *649
Cargo and passenger motorship City of San Francisco ... *651
Cargo and passenger motorships. Special London correspondent ... *649
Cargo, Danger to vessel of full weight or volume of (Q) ... 437
Cargo vessels of the Great Lakes, Self-unloading. Henry Penton and Herbert C. Sadler ... 729
Cassard and Bouvet, New 10,000-ton French cruisers (N) ... *569
Castings, Margin for bolt holes in heavy (Q) ... *436
Cavitation in U. S. scouts and destroyers, Extent of. E. F. Eggert ... 730, *744
Centaur, Cargo and passenger motorship ... *649
Central committee of American Marine Congress April 10 meeting ... 210
Chamber of Commerce urges marine policy (N) ... 754
Chapman, L. B.: Influence of size on operating expense of motorships ... 143
Channel steel system, Building barges of ... *148
Chairman of the Shipping Board: A good man needed (E) ... 4
Chairman O'Connor of the Shipping Board answers resolution of inquiry (P) ... 227
Challenger, Machinery of the converted motorship ... *128, 155
Chamfering piston rings (Q) ... 122
Changing a section of the crank shaft in a Diesel engine. A. F. Menzies ... *243
Charles M. Schwab, Performance tests of steamship ... *278
Charlton, A. M.: Propelling machinery of new light cruisers Omaha, Milwaukee and Cincinnati ... *177
Chemistry to marine engineering problems, Applying. C. A. McAllister ... 396
Chicago Pneumatic Tool Company: Portable compressor ... *478
City of San Francisco, Cargo and passenger motorship ... *651
Cleaner, Pneumatic surface: Liberty Manufacturing Company ... *486
Clearing the shipping situation. "Old Scotch" ... 73
Coast Guard cutter Modoc, Machinery trials. Q. B. Newman ... *94
Coast Guard patrol boats (N) ... 442
Coast Guard Service, Program contemplated for (N) ... 126
Coast Guard Service, Patrol boats for (N) ... *318
Coefficient, Block (Q) ... 374
Collier Vulcan, Reconditioning and conversion of (N) ... *258
Colorado exceeds contract speed on official sea trials (N) ... 506

Original from UNIVERSITY OF MICHIGAN

Columbia Steamship Company orders million dollar freighter (N)..... 255
Columbus, Passenger and freight steamer. E. Foerster..... *81
Columbus, Propelling machinery of German passenger steamship. E. Foerster..... *228
Combined riveting and welding. Commander H. E. Rossell (L)..... 251
Combustion principle, Oil engine designed to operate on progressive..... *599
Commercial work in navy yards, Performance of (E)..... 574
Comparison of model propeller experiments in three nations. D. W. Taylor..... 730
Compass, Earth inductor (P)..... 372
Compressor, Portable: Chicago Pneumatic Tool Company..... *478
Condenser, Cooling water for (Q)..... 747
Condenser tube entrance nozzle: A. E. Mace & Company..... *181
Condenser tubes (E)..... 694
Condenser tubes and ferrule stocks, To consider standard specifications for..... 272
Condenser tubes, Corrosion of (Q)..... 122
Condenser tubes, Corrosion of. Johnstone-Taylor..... 108
Condensers and boilers, Electrolytic system for preventing corrosion in..... 289
Conduit type oil separator: Knight & Smith..... *491
Conference, Second International shipping. W. H. Wendon..... 417
Congress (E)..... 386
Congress again takes up the shipping problem. "Old Scotch"..... 5
Consolidation of services bringing results. H. F. Lane..... 575
Construction and repair contracts in June... 431
Construction news, Marine (N)..64, 129, 196, 260
Construction proposed, Naval (N)..... 321
Construction: Six and a half million in new vessel contracts awarded (N)..... 319
Contract for new passenger steamer (P).. 243
Contracts awarded for Coast Guard patrol boats (N)..... 442
Contrapropeller fitted to American steamship Norfolk..... *371
Contrapropeller, The action of the. Olav Overgaard..... *591
Conversion, Diesel (E).....263, 324
Conversion amendment to shipping bill, Senate passes Diesel. H. F. Lane..... 331
Conversion of steamer Seekonk to motorship. J. C. Shaw..... 737
Conversion, Shipping Board selects 12 vessels for. H. F. Lane..... 419
Conversion program completed, Diesel engine plans for government (N).. *441, 564
Cooking for marine use, Electric..... *309
Cooling water for condenser (Q)..... 747
Correction Q. (1,245) (P)..... 623
Corrosion can be reduced, How the ravages of. C. A. McAllister..... 663
Corrosion, Failure of welds from. J. W. Owens (L)..... 186
Corrosion in boilers and condensers, Electrolytic system for preventing..... 289
Corrosion of condenser tubes (Q)..... 122
Corrosion of condenser tubes. Johnstone-Taylor..... 108
Corrosion, Rubber sleeves protect propeller shafting from..... 479
Cory dry dock control system..... 310
Cracked engine column welded..... *616
Cramp cruisers to be flagships (P)..... 407
Crane, Crawling tractor: Industrial Works. *422
Cranes, Labor saving electric (photographs)..... *435
Crank shaft in a Diesel engine, Changing a section of the. A. F. Menzies..... *243
Crawling tractor crane: Industrial Works. *422
Credit unit formed by marine engineers. B. L. Todd..... 6
Credits for improvements, Marine insurance. 158
Cruiser stern, Advantages of the (Q)..... 185
Cruisers, New 10,000-ton French (N)..... *569
Cruisers Omaha, Milwaukee and Cincinnati, Propelling machinery of. A. M. Charlton..... *177
Cubore, New Bethlehem Diesel engine installed on motorship..... *161
Cubore, Trails and operation of the motorship. A. B. Homer..... 735
Cunard Liner Ascania designed for North Atlantic service..... *90
Cutting torch patent sustained, Oxy-acetylene (N)..... 258
Cylindrical marine boiler with and without preheated air, Tests on a. W. H. Owen..... *244
Cyrus-Field, French cable-ship (N)..... 259

D

Danger to vessel of changing weight or volume of cargo (Q)..... 437
Data sheet: Great Lakes freighter Charles M. Schwab..... *281
Davit, How to stiffen a boat (Q)..... *497
De Grasse enters New York-Havre service, Steamship (photograph)..... *601
De Grasse, Passenger steamship. Our Paris Correspondent..... *290
De Laval high pressure impulse turbine... *430
Deck camber, sheer and bevel nomogram. E. V. Telfer..... *362
Decks during lay-up, Care of wood (Q).. 437
Defoe Boat & Motor Works (P)..... 176
Deluge, Fireboat..... *29
Design of ships, The development of the structural (E)..... 3
Design, Strategical and tactical considerations governing warship. Sir Dovetón Sturdee..... 372
Destroyer, Flush deck type of (Q)..... 498
Destroyer McFarland rammed by U. S. S. Arkansas off Cape Cod (photograph).. *7
Detector, Oil: Engine room kinks. C. C. McMillan..... *557
Deutschland, Maiden voyage of passenger steamship..... 160
Development of the airship with special reference to transport. Commander C. D. Burney..... 398
Development of the structural design of ships, The (E)..... 3
Die screw adjustment for riveting machine: Hanna Engineering Works..... *479
Diesel bids (E)..... 636
Diesel conversion (E).....263, 324
Diesel conversion amendment to shipping bill, Senate passes. H. F. Lane..... 331
Diesel conversion program ready (N)..... *441
Diesel conversion, Shipping Board selects 12 vessels for. H. F. Lane..... 419
Diesel drive, Converting Government ships to (N)..... 126
Diesel drive must be reckoned with. W. P. Lambert (L)..... 123
Diesel-driven transatlantic oil tanker (N).. 691
Diesel-electric Army dredge completed, First *231
Diesel electric barge. J. H. Senior..... 167
Diesel electric dredge shows marked economy in operation..... *341
Diesel-electric dredge A. Mackenzie completes trials..... *409
Diesel-electric drive for Great Lakes dredge Lake Weir (N)..... 194
Diesel electric drive for oil tanker (N)... 127
Diesel electric ferries for West coast (N).. 127
Diesel-electric tanker. J. H. Senior..... *235
Diesel-electric towboat. J. B. Battle..... *159
Diesel electric tug boat. Frank L. DuBosque..... 703, 739
Diesel electric tug P. R. R. No. 16. (N).. *505
Diesel electric tug, The first..... *523
Diesel-electric tug Van Dyke 3..... *579
Diesel engine, A new double-acting. Special London Correspondent..... *421
Diesel-engine, British shipowners consider future of. W. H. Wendon..... 146
Diesel engine, British yard builds largest marine. Special London Correspondent. *239
Diesel engine builders submit alternative propositions on Shipping Board conversion (N)..... 626
Diesel engine, Changing a section of the crank shaft in a. A. F. Menzies..... *243
Diesel engine company formed (N)..... 259
Diesel engine contracts, Shipping Board conversion awards (N)..... 751
Diesel engine developments in Germany. Special London Correspondent..... *168
Diesel engine, Double acting (E)..... 571
Diesel engine drives stern wheel towboat, Reversible..... *241
Diesel engine installed in stationary power plant, Marine..... *227
Diesel engine, North British double acting two cycle..... *525
Diesel engine plans for Government vessel conversion program completed (N).. 564
Diesel engine tested in motorship Cubore, New Bethlehem..... 147
Diesel engine, The present status of the marine (E)..... 68
Diesel engine, The Tosi. G. C. Ziliotto... *357
Diesel engine, Vickers: Special London Correspondent..... *711
Diesel engine, Worthington double acting two cycle.....*528, 585
Diesel engineering, Practical (E)..... 385
Diesel engineering, Practical. Louis R. Ford.... *337, 389, 473, 543, 607, 669, 741
Diesel-engined Lightship III (N)..... *255
Diesel-engined tug Arthur N. Herron..... *174
Diesel engines and auxiliary machinery, Lubricating..... 298
Diesel engines, Aluminum alloy pistons for. Major Johnstone-Taylor..... 397
Diesel engines, Cam profiles and fuel injection on. Major Johnstone-Taylor... *665
Diesel engines, Course on (N)..... 629
Diesel engines, Double acting. Johnstone-Taylor..... *605
Diesel engines for French vessels (N)..... 383
Diesel engines, M. A. N. double acting.... 516
Diesel engines, Maintenance and care of. Oscar Olson..... 169
Diesel engines, Noiseless exhaust of (Q).. 250
Diesel engines on the Great Lakes freighter Henry Ford II..... *335
Diesel engines, Shipping Board issues specifications for construction of (N)..... *626
Diesel engines, Six tank ships to have double acting. Special London Correspondent. 668
Diesel engines, Standardized..... 648
Diesel engines, Summary of bids by U. S. Shipping Board for furnishing (N)... 687
Diesel engines, The adoption of (E)..... 201
Diesel machinery for 20,000-ton passenger liner. Our Special London Correspondent..... *291
Diesel oil engine, New Bethlehem..... *161
Diesel tug Jumbo on exhibition run (N).. *190
Diesel yacht Vanadis launched in Germany (N)..... *63
Design and construction of refrigerated ships. Llewellyn Williams..... *713, 731
Differences in drawing and spinning metals (Q)..... 374
Dinger, H. C.: Securing fuel economy at sea..... 213
Dinger, H. C.: What is the ultimate economy of a marine boiler..... 534
Dipper dredge Lucayan towed across the Atlantic (N)..... *320
Disposal of 300 Government merchant ships recommended..... 454
Disposal of U. S. S. Emeline (Q)..... *185
Docks, Transfer of government (P)..... 418
Docks, Southampton (photograph)..... *80
Dolius, Motorship. Special London Correspondent..... *338
Dolius, Scott-Still engines for motorship. Special London Correspondent..... *35
Donora, Stern wheel river towboat. (photograph) (N)..... *594, 630
Double acting Diesel engine (E)..... 571
Double-acting Diesel engine, A new. Special London Correspondent..... *421
Double acting Diesel engine, Worthington.. *585
Double acting Diesels. Johnstone Taylor... *605
Double spindle threading machine: Geometric Tool Company..... *344
Doxford engine, Three-cylinder 2,100 horsepower. Special London Correspondent. *343
Dredge A. Mackenzie, Diesel-electric..... *409
Dredge, Diesel-electric Army..... *231
Dredge Lake Weir, Diesel electric drive for (N)..... 194
Dredge Lucayan, Dipper (N)..... *320
Dredge Texas, Diesel electric..... *341
Dredge, Twenty-six inch hydraulic. R. R. Roane..... *340
Dredges, hydraulic sea going hopper. W. D. Styer..... 728
Dreis & Krump Mfg. Co.: Eye shield for grinding machines..... *496
Drum, Attaching tiller cable to steering wheel (Q)..... 683
Dry dock, Atlantic Works new 8,000-ton... *90
Dry dock control system, Cory..... 310
Dry dock weighing 15,000 tons lifts ship displacing 15,900 tons..... *349
Dry dock, World's largest floating (N).... 195
Dry docks, Lifting capacity of floating. J. Stuart Crandall (L)..... 562
DuBosque, Frank L.: A Diesel electric tug boat..... 703, 739

E

Earth inductor compass (P)..... 372
Eastland, F. M.: The port of Portland.... 242
Eckert Louis: Review of "Hochdruck-Dampf..... 561
Economies, Ship (E)..... 135
Economy in shipbuilding. A. D. MacDonnell..... 455
Economy of feed water heaters (Q)..... 747
Edmonds bill: Motorship Legislation before Congress. "Old Scotch."..... 139, 267
Effect of adverse wind or current on speed of propelling turbine (Q)..... 374
Effect of current on speed of vessel through water (Q)..... 250
Effect of sulphur in fuel oil (Q)..... 55
Effect of wind and waves on propulsion of ships. J. L. Kent..... *536
Efficiency of personnel (E)..... 1
Eggert, E. F.: Extent of cavitation in U. S. scouts and destroyers..... 730, *744
Elastic towing. Spencer Miller..... 657
Electric Arc Welding and Cutting Company: Portable arc welding unit..... *702
Electric arc welding applied to shipbuilding. A. G. Bissell..... *617
Electric Army dredge, Diesel..... *231
Electric cooking for marine use..... *309
Electric cranes, Labor saving (photographs). *435
Electric dredge A. Mackenzie, Diesel..... *409
Electric drive for Great Lakes dredge Lake Weir, Diesel (N)..... 194
Electric-driven tug Van Dyke I, Oil engine (N)..... 445
Electric tanker J. H. Senior, Diesel....167, *235
Electric tug boat, A Diesel. Frank L. DuBosque..... 703, 739
Electric tug, The first Diesel..... *523
Electric tug Van Dyke 3, Diesel..... *579
Electric welding, Bibliography of..... 117
Electrical device used in launching first Ford motorship..... *302
Electrical method of flue gas analysis..... 170
Electrical salinity indicator: Engine room kinks. C. C. McMillan..... *556
Electrically welded, Cracked engine column. *616
Electrolytic system for preventing corrosion in boilers and condensers..... 289

Towboat Harvey, Stern wheel motor..... *241
Towboat J. B. Battle, Diesel electric..... *159
Towing, Elastic. Spencer Miller 657
Towing power of tugs, Measuring the. Dr. G. Kempf *602
Towing regulations, Barge 160
Trade facilities act harmful, British shipowners. W. H. Wendon..... 211
Training for an engineer's license. David Gaehr 641
Transatlantic speed records (Q) 682
Transfer of government docks (P)..... 418
Transport, The future of sea. Archibald Hurd 327
Transports, U. S. Army harbor. C. H. Handy *223
Trial of motorship Challenger *128
Trial of motorship Henry Ford II, Official (N) 566
Trial of motorship Seekonk..... *24
Trial of motor tug (Q)..... 683
Trial of steamship Islander..... *285
Trial of Worthington engine, Non-stop (N) *754
Trials, Ship and engine (E) 67
Trials and operation of motorship Cubore. A. B. Homer 735
Trials of battleship Colorado (N) 506
Trials of Coast Guard cutter Modoc, Machinery. Q. B. Newman *94
Trials of motorship Swanley..... *480
Trials of scout cruiser Raleigh..... *93
Trials of steamship Charles M. Schwab.. *278
Tug Arthur N. Herron, Diesel-engined motor *174
Tug Hustler, Motor *27
Tug Jumbo on exhibition run, Diesel (N) *190
Tug, New York Central to build (P)..... 16
Tug P. R. R. No. 16, Diesel electric (N).. *505
Tug, The first Diesel electric..... *523
Tug, Trial data of motor (Q) 683
Tug Van Dyke I, Oil engine electric-driven (N) 445
Tug Van Dyke 3, Diesel-electric..... *579
Tug Zoe, Motor *472
Tughoat, A Diesel electric. Frank L. DuBosque 703, 739
Tugs, Measuring the towing power of. Dr. G. Kempf *602
Turbine, De Laval high pressure impulse.. *430
Turbine drive for auxiliary machinery. R. W. Allen *554
Turbine, Effect of adverse wind or current on speed of propelling (Q)..... 374
Turbine power plants, Modern tendencies in steam. Eskil Berg *305
Turbines, Operating and maintaining marine impulse. O. M. Gordon....109, 673
Turbines, Water rates of geared. H. E. Brelsford 171
Twenty-six inch hydraulic dredge. R. R. Roane *340

U

Unemployment in England, New scheme for reducing. W. H. Wendon..... 269
Union formed by marine engineers, Ocean credit. B. L. Todd 6
Unique electrical device used in launching first Ford motorship *302
United States battleship Colorado, Official sea trials of (N) 506
United States battleship Maryland awarded highest engineering honors in the Navy 516
U. S. Chamber of Commerce to discuss section 28 at annual meeting..... 284
U. S. scout cruiser Omaha (photograph).. *237
United States shipbuilding in 1923..... *8

V

Vacuum for reciprocating engines (Q).... 560
Valve, Gas-tight: Oxweld Acetylene Company *620
Valve trouble, Rectifying (Q)..... 313
Van Dyke 3, Diesel-electric tug *579
Vanadis launched, Diesel yacht (N)..... *63
Veedam, Passenger steamship *333
Ventilating passenger and crew accommodations. W. E. Spofford *412
Vessels, What is a fair price for new (E).. 133
Vibration of ships, Natural periods of. E. H. Rigg 301
Vickers Diesel engine. Special London Correspondent *711
Villamin, Vicente: How industrial development of Philippines will aid American merchant marine 17
Volendam, Passenger steamship *333
Voltaire enters South American service, Steamer (N) *63
Vulcan hydraulic geared Diesel installation *168
Vulcan, Reconditioning and conversion of collier (N) *258

W

Wage demands of British seamen granted. W. H. Wendon 485
Wake and thrust deduction of self-propelled single screw models. Edward M. Bragg 730
Walsh, J. H.: How will the future growth of ships affect ports *39
Walsh feedwater heater installed in Gulf tug boats *604
"Warehouses and Shiping Rooms" (P)....370
Warship design, Strategical and tactical considerations governing. Sir Doveton Sturdee 372
Warships upheld by court, Sinking of .. 702
Warships, Scrapping. H. E. Rossell..... 733
Warships, Scrapping Uncle Sam's. J. N. Jordan *697
Washington Irving converted to an oil burner, Steamer (N)..... *127
Water rates and steam consumption of auxiliaries. E. A. Stevens, Jr. and H. E. Brelsford *427, 492, 547, 611, 676
Water rates of geared turbines. H. E. Brelsford 171
Water rates of marine reciprocating engines. E. A. Stevens, Jr.....*293, *364
Watertight boundary angles, Rivet spacings for (Q) 250
Weight nomogram, A steel. E. V. Telfer.. *720
Weight of anchors (Q) 437
Weight or volume of cargo, Danger to vessel of changing (Q)..... 437
Welded, Cracked engine column *616
Welded pipe hangars, Failure of. T. F. Hagan (L) 123
Welded ships, Residual stress in arc. James W. Owens *487
Welder, Portable arc: General Electric Company *422
Welding and riveting, Combined. Commander H. E. Rossell (L)..... 251
Welding applied to shipbuilding, Electric arc. A. G. Bissell *617
Welding, Autogenous (Q) 437
Welding, Bibliography of electric 117
Welding for ship repairs, Thermit (P).... 558
Welding to ship construction, Applications of arc. E. H. Ewertz *47
Welds from corrosion, Failure of. J. W. Owens (L) 186
Welfare plan, Great Lakes shipowners develop model. G. A. Marr 393
Wendon, W. H.: British shipowners analyze performance of motorships 77
Wendon, W. H.: British shipowners consider future of Diesel engine 146
Wendon, W. H.: British shipowners find trade facilities act harmful 211
